

I am very upset that Sinclair Broadcasting decided to play dirty politics in this stage of the election time or any time via the free public airwaves that are paid by our tax dollars. It demonstrate the danger of media consolidation. FCC should and must carry out its responsibility to prevent the public interest to be corrupted by such manipulation and deception in the name of free speech. The minimum FCC should do now is to demand Sinclair to provide equal time for the opposite view to be presented at the same time.
